COCOM Document No. 3598

COORDINATING COMMITTEE

MEMORANDUM BY THE NETHERLANDS DELEGATION

EXPORT OF ELECTRONIC VALVES TO POLAND

The Netherlands authorities have received an application for a licence to export to Poland 150 electronic tubes, type 4 c 35 covered by International List Item 1559(b), value \$8,250.

These tubes are required for use in unembargoed merchant marine radar. These radar sets are expressly excluded from Item 1501(d)(1). The usual guarantees against reexportation have been received.

In view of the special policy adopted by the Committee towards Poland and of the civil end-use the Netherlands authorities wish to grant the licence and trust that no objections will be raised against this export.

The Netherlands Delegation would appreciate having views of governments at an early date.
